Dear Mr. Wilson,

This cell line is available for general distribution.

By law all patent materials must be made available after the patent issues. These are released patent items; however, these deposits are not accessioned by ATCC thus they don't appear in ATCC's online catalog because certain information concerning them is confidential.

I am interested in confirming from your website that these hybridomas are available to the public. I cannot do this. Can you confirm that your website shows that these clones are available and explain to me how I can verify this by your website. Thanks.

Dear Mr. Wilson,

Thank you very much for contacting ATCC Patent Depository. Both the materials requested by you are released patents and so they can be bought by placing order with our sales department. The main requisite is to have an account with us. If you don't have one you can open a new account.

For ordering the material call us at: **(800) 638-6597** (US and Puerto Rico) .

I am seeking information about ATCC patent deposits HB12467 and PTA1626. These are referenced in U.S. Patent 6,627,457 but do not seem to be available publicly in the ATCC database. Please advise. Thanks.

Barry Wilson
